

## Work with students from around the world!

While in the distance learning program, you will interact with students from other countries, such as Brazil.

Classrooms are equipped with business level communication technology to make it feel as if you are in the same room as students taking the same course in another country.

## Distance Learning Classrooms

## What is Distance Learning?

Distance learning will allow for real-time collaboration between students in Brazil and at UCF. Students will feel like they are in the same place thanks to business level communication technology in the classroom.

### Key Features

What are the benefits of taking class in a distance learning classroom?

- Speak in English to interact with students from Brazil
- Utilize new high-end technology to aid learning and communication
- Online draft sharing, peer review, and talking with students in Brazil

### New Communication Technology

Each room will be equipped with state of the art audio equipment and a wall-sized screen to make it appear as if you are in the same room as the students in Brazil.

## A New Frontier for UCF

More than 85% of the students at other schools enrolled in distance learning programs have enjoyed the new environment.

At UCF, we plan, with your help, to make our distance learning classrooms the best in the nation. Students will feel as if they are in the same room as the other students in Brazil.

*"The distance learning program at UF really broadened my world view. I enjoyed working with the students in another country and would love to do it again!"*

- Jamie Potter

*"Equipped with a state-of-the-art sound system and screens that take up an ENTIRE wall, the new 'Distance Learning' classrooms are going to be completed in time for fall. UCF is always head of classroom technological advances."*

- Orlando Sentinel

## Fall 2017 Enrollment

UCF is accepting enrollment for our first distance learning classrooms. Currently, the classes offered are ENC1101 and ENC1102.
