## Georgetown Music Parents

What is a stage with bad lighting?

(\*Answer inside)

# \*A stage with no theatrical value

## How are our lights?

- Approximately 1/3 of the 40 lights can be turned on and off
- None are controllable by the lights master board
- The rest are useable
- The dimmer packs located on the stage are overheating and the elements are failing

## What needs to be done to fix our lights?

- Replace damaged lights
- Replace parts in the panels

## How much will this cost?

- Our goal is \$18,000

## How can I help our stage regain value?

- Donate time and money
- Share this information

## What will my donation do for our lights?

Donations will go toward:

- Light repairs
- Replacing parts in the lights board and dimmer packs
- Making sure all 40 lights, the lights board, and the dimmer packs work properly
